

**Anna Rizova** is a Managing Partner with over fifteen years of experience. She has been involved in major M&A as well as privatization transactions in Bulgaria, assisting clients throughout the entire transactional process including legal due diligence of target companies, transaction structuring, drafting of the necessary sets of transactional documents, closing and post-closing matters. She has led many cross-border investment projects and is recognized in particular for her considerable expertise in managing multinational assignments. Her expertise in the energy sector (renewables, gas & oil, generation) covers a broad range of energy matters including Bulgarian and EU overall regulatory framework, financial incentives mechanisms, tariffs formation, interconnection and connection to the grid, licenses, generation, retail supply, risk assessment in the case of non-compliance as well as project related contractual arrangements.

Some of Anna's recent mandates in the energy sector include advising South Stream Transport BV, the joint venture of OAO Gazprom, Eni S.p.A., EDF Group, and Wintershall Holding GmbH—a BASF subsidiary, on the development of the South Stream Offshore Gas Pipeline from Russia, crossing the Black Sea and landing on the Bulgarian coast; and advising and representing key renewable energy generators in Bulgaria, such as Lukerg Renew, Enel Green Power, Alpiq, and Solar Green Energy on access to the grid matters for RES electricity generators. Anna has also advised the Bulgarian Energy Holding on the Third Energy Package framework and leading European commercial banks on the financing of photovoltaic and wind projects in the country.
