

**Oliver Altenhoff**  
**Open Grid Europe GmbH**

Oliver Altenhoff is head of regulatory affairs at Open Grid Europe. He graduated with a Diploma in Economics and a Master of Business Administration and joined E.ON Gastransport (now Open Grid Europe) in 2006. After working with national regulatory issues he joined the international regulatory team in 2007. Within the ERGEG Gas Regional Initiative North West he was the TSO responsible coordinator of the GRI NW transparency project. In 2008 he was the responsible project manager at E.ON Gastransport for secondary markets and transparency. He is in charge for developing an enhanced system for capacity allocation and congestion management procedures at Open Grid Europe. He represents Open Grid Europe at the European Network of Transmission System Operator for Gas (ENTSOG).
