

Dr. Gabor C. Tari

Dr. Gabor C. Tari holds Masters degrees in Geophysics and in Geology from Eötvös University of Budapest, Hungary. He graduated from Rice University with a Ph.D. in Geology and Geophysics in 1994. After working for Amoco on exploration projects focusing on the Romanian Carpathians and the Moesian Platform he transferred to the Amoco Angola Team in 1996. First he did regional evaluations for offshore bid-rounds, but later joined the Block 18 project, where several discoveries were made since then. Following the merger between BP and Amoco, he continued to work for the new organization. Gabor joined Vanco Energy Company in 1999 and, as the Vice President of Geosciences, worked on a large number of projects around Africa, for example in Morocco, Senegal, Ivory Coast, Ghana, Gabon, and Madagascar. He also identified the Black Sea Basin for Vanco as a very promising and practically unexplored deepwater basin. Since last year, Gabor is with OMV in Vienna, Austria, working as Exploration Advisor on several projects in Romania, Bulgaria, Egypt and Kazakhstan.
