

Mr. Constantin Gheorghe possesses a solid background in the oil & gas field, starting as a drilling engineer and going up to the position of rig OIM for approximate 16 years for various local and international oil & gas companies (Petrom, Enterprise Oil, Baker Hughes Inteq), both onshore and offshore. Starting 2000, Mr. Gheorghe has moved to the HSE field and has worked for five years as HSE Supervisor onboard the D/S Saipem 10000. In 2005, he was appointed as HSE Manager for Saipem Drilling North Africa. Mr. Gheorghe has joined GSP in 2006 as Chief HSEQ Officer & Company DPA, having the main responsibility to develop and implement a strong HSEQ Management System throughout the company. Under his coordination, the company`s HSEQ Management System quality has been accepted and recognized by various international agencies and classification societies as well as by all the Company`s Clients. Starting mid-2013, Mr. Gheorghe was appointed as Corporate Chief HSEQ Officer. He took office again in March 2016, after completing an eight months CEO HSE Compliance Advisor mandate. In September 2014, Mr. Gheorghe has been included in the Group of Initiative established by the Government of Romania for the transposition of the new EU Offshore Safety Directive and, in February 2015, he`s been nominated by the Romanian Government as the Technical Expert to represent Romania in the EU Offshore Safety Committee for the transposition of the new Offshore Safety Directive. Mr. Gheorghe is a Member of IWCF European Branch Committee.
