

Foivos Symeonidis short CV

Mr Symeonidis is a Petroleum Engineer MEng from Edinburgh Herriot Watt University. Since 1982 he has been working as a site engineer, drilling manager and technical director for Public Petroleum Corporation S.A and EKY S.A., during the various drilling campaigns in the offshore and onshore areas of Western and Eastern Greece. During 2005 to 2008 he was appointed as country manager and company representative for Hellenic Petroleum Libyan assets in a Joint Venture with Woodside and Repsol. From 2008 to 2012 he has been overseeing drilling operations on Hellenic's Egyptian assets in the Western Desert and large Mesaha concession area bordering with Sudan in Joint Ventures with Petroceltic, Kuwait Energy, Beach Energy and Vegas Oil and Gas. His current position is Operations Manager in all Hellenic's Greek exploration and production assets in offshore West Patraikos with Edison International, onshore Arta-Preveza and NW Peloponnesus and offshore Block-2 operated by Total with Edison and Hellenic as partners.
