

Kateryna Filippenko

Research Director

Global Gas Markets

kateryna.filippenko@woodmac.com

Kateryna has been with Wood Mackenzie since 2012, starting her career on the Upstream research team. In 2019, she transitioned to the global gas and LNG team, where she now focuses on analysing global gas market trends, exploring the role of gas in the energy transition, and evaluating alternative energy scenarios. She plays a key role in shaping and communicating Wood Mackenzie's long-term global gas forecasts, including market fundamentals and pricing dynamics.

Kateryna also leads the research behind Wood Mackenzie's Biomethane/RNG service, coordinating research content development across North America, Europe, and Brazil.

With significant experience in research and consulting, she regularly advises senior executives, speaks at international conferences, and is frequently quoted in major media outlets.

Kateryna holds an MSc in International Economics from the Kyiv National Taras Shevchenko University, Ukraine, and an MSc in International Finance from the University of St Andrews, UK.

She is based in Vienna (Austria).
